	should we provide the mark up on the hourly rate plus the fringe benefits, etc. that are required as part of the union contract?	
8	Exhibit 1 – Form of Agreement specifies that it contains five exhibits. Would these contain information that might be reviewed now?	The exhibits become part of the final Form of Agreement and are currently the RFP documents: Exhibit I – Scope of Services are the scope outlined in Section 2; Exhibit II – Pricing is the pricing submitted as outlined in Required Form F; Exhibit III – Insurance Requirements are the requirements as outlined in Required Form D; Exhibit VI – Request for Proposals (RFP) is the RFP document in its entirety; Exhibit V – Special Conditions Regarding Minority and Women Business Enterprises – this section does not apply to this specific agreement, therefore, may be omitted.
9	Please provide further detail regarding the intended definition of “production” as used in Section 2.1 and elsewhere in the RFP, including the areas at McCormick Place where “productions” may be held.	Please refer to Exhibit VII - Harmony Agreement
10	Is the scope of work covered by the RFP intended to apply only to corporate events? If so, please define that term.	No.
11	Can a general session, associated with a trade show, be considered a “production”? In addition, if a trade show has a general session in a meeting room or in an exhibit hall, would the general session be subject to the scope of work envisioned in the RFP?	Please see question 9.

13	Is the scope of work covered by the RFP intended to apply to public events?	Please see question 9.
14	Please provide a list of events (occurring in the recent past or near future) that would, and a list of events that would not, come under the jurisdiction of the selected labor broker as envisioned by the RFP. 	labor on the use of the audio-visual provider's equipment?	
18	Please provide further detail regarding planned process and procedure for the procurement and/or use of needed equipment for any "production" to be serviced by the selected labor broker. Under the current model, service providers generally provide both labor and equipment.	This agreement will only cover and grant preferred status on the provision of production labor.
19	The RFP indicates that the selected labor broker will provide labor to show managers and "production" companies, and that the labor broker shall provide estimates to any events regardless of whether it has selected another contractor to provide labor. If a "production" company contracts the labor through the selected labor broker, is the labor broker responsible for managing to the provided estimate, or is the responsibility then with the "production" company?	The labor broker will provide an estimate based on the information provided by the production company. The production company or show manager will bear ultimate responsibility for cost associated with additive changes from the base estimate. The labor broker will only charge for actual services provided. The labor broker will be responsible for implementing a documented change order process and be responsible for resolving disputes concerning billing.
20	How would the selection of a labor broker or institution of a labor broker process impact agreements currently in place for events at McCormick Place, should the scope of those agreements fall into the scope of the RFP?	Please see question 3.

 Answers to Questions Submitted by Potential Proposers

22	Will it be a requirement to provide estimates to other production, audio visual or labor companies who hold contracts with the Labor Unions as outlined in Page 4, Section 2.1, 4, b.) of the RFP? This would amount to submitting proprietary and confidential work documents to competitive entities.	No, but they will be required to provide estimates to any show manager who requests an estimate.
23	In order to respect the confidentiality of labor union agreements and provide concise billing, would providing the rates in a similar fashion to what can be found on the McCormick Place website be sufficient to satisfy the Transparent Billing requirements?	No. The breakdowns must be included in billing as referenced in 2.1.4.b.iii.
24	Will McCormick Place SMG make available at no cost to Contractor a suitable on-site office space large enough for a Supervisor and staff? Will utilities including long distance phone and Internet access be included?	Yes.
25	Do we need an electrical contract, or can we use an EAC approved electrical contractor?	Please refer to 2.1.4.a. For productions, the labor broker will be required to utilize Local 134 Electricians provided by the Utility Services Contractor for the show. For meeting room work which does not meet the definition of a production, the labor broker will be required to utilize Local 134 Electricians provided by the facility.
26	Can we elect NOT to provide electrical service?	No.
27	We understand the transparency of the billing of labor, but is the same transparency required on the markup of materials used and the markup of rental equipment?	Equipment and materials will not covered under the agreement. This RFP is for labor services only.
28	Is SMG responsible for hiring the ancillary sub-contractors i.e. floral, cleaning...	No.
29	The minority mandates that are listed- does this mandate apply to all hired sub-contractors?	While Minority and Women Business Enterprises are encouraged to participate in this Proposal; this agreement does not have any required goals.
30	If there are materials supplied, purchased or rented from McCormick Place/SMG, is there a pre-determined markup rate?	McCormick Place/SMG will invoice for these items directly.
